

JAM

Keen on quality; keen on cost

Fourayes industrial jams are the first choice when it comes to quality, provenance and keen pricing. That is because at Fourayes we go “way beyond fruit”, with service levels that are second to none.

Since 1953, Fourayes has been growing great English fruit and is now a UK market-leader in fruit processing; including Bramley apple, Victoria plum, Strawberry, Raspberry, Blackcurrant and other soft fruits. Kentish provenance is included at no extra cost!

Fourayes bespoke industrial jams are made to individual requirements and tolerances. We use the best possible quality fruit and our jam makers have an enviable reputation for delivering exceptional jams.

Whilst quality is high, thanks to lean manufacturing and a sophisticated high-end production control system, costs are keen.

Plant

The vacuum production plant produces superior quality products with exceptional flavour, colour delivery and no caramelisation.

As with all processes at Fourayes, jam making is subject to high levels of control and strict tolerances to ensure consistent quality, flavour and colour. Through recipe and process control we are able to provide products we are proud of.

For example, to maintain quality, jam is made in batches of 600 kilos for optimal control.

All Fourayes industrial jams are made to BRC Grade A standard and comply fully with the Jam and Similar Products Regulations (2003).

Products

Fourayes industrial fruit jams come as smooth and pump-able products for use in confectionery products such as doughnuts and scones, in products where spread ability is key such as celebration cakes, in baked products such as jam tarts and for specialised bake stable products such as slices.

Provenance

Fourayes Bramley apple, Victoria plum, Strawberry and Raspberry industrial fruit jams come with the added assurance of Kentish provenance.

Packaging

Choose from 12.5 kilo buckets up to 1 tonne Pallecons or 1 tonne tanks.

Samples

We are well known for our fast turnaround sampling service which offers 1 or 2 kilo pack sampling normally within 3 working days.

Any Questions?

If you have any questions, would like to know more or to take advantage of our fast-turnaround sampling service please contact us.
